Elevation Plan Templates - SmartDraw

An elevation drawing is the view that you would see in real life as you stand looking at either the front or side of the solid. The plan is what you would see if you were looking directly down. A set of elevation and plan drawings gives you the chance to see all of the object from the multiple viewpoints.

Plan and Elevation Drawings of 3D shapes - Mr-Mathematics.com

1) Draw a plan, a front elevation, and a side elevation of the 3D shape below. As we can see, the shape is one block high and is the shape of a cross, or letter x. As a result, the plan is going to be the shape of a cross, and both elevations will only be one block high.
